Qualified firms will be selected based on experience, qualifications of personnel, and ability to perform construction or maintenance services. Packages will be reviewed and rated by a committee appointed by the District Board of Supervisors, with final selection expected to be made at a publicly noticed Board of Supervisors meeting as soon as practicable after receipt of the recommendations of the Committee appointed by the Board to evaluate the submitted packages. At that time, all qualified firms may be assigned a project qualification and aggregate dollar limit for work under District contracts. All applicants will be promptly notified after the construction and maintenance firms are selected. The pre-qualification decisions of the Board of Supervisors shall be valid for a period of three (3) years, after which the Board of Supervisors may either extend the prequalification period for an additional two (2) years or open the prequalification process again, at its sole discretion. Pre-qualified firms will be eligible to bid on construction and maintenance projects subject to the applicants approved project classification and aggregate limit.
